

Natasha Sapp – Natasha is a 33 year old parent of 2 students at Harmon Elementary, one who is 5, one who is 7, and a 2 year old at home. Natasha also student taught here last Fall. In the Spring Natasha was diagnosed with Stage 4 breast cancer. The cancer has spread to her hip and she has just completed chemotherapy. Natasha will be undergoing a mastectomy on November 4<sup>th</sup>. On a personal note, Natasha is one of the most positive people that you will ever come in contact with. Even as she was going through chemotherapy, losing her hair, and I am sure feeling quite sick, when I would call or see her and ask how she was, she always has responded with “Fabulous, how are you doing?” Amazing! Natasha has told me that she has a 2 year old who she fully expects to see grow old. She has heart, fight, and courage. The money that we raise will go to help Natasha and her family take care of the medical bills that are mounting from her treatment.

Hana Hornbeck – Hana is the freshman cheer captain at Combs High School. About 6 weeks ago she became ill with an unknown infection that attacked her heart. She has since been diagnosed with the heart condition known as Myocarditis, an inflammation of the heart muscle. As of October 3, Hana has been placed at UCLA Medical Center. Yesterday she underwent an open heart procedure called VAD placement. This is her transition to a heart transplant. Hannah is described as happy, bubbly, a leader, with a smile that lights up any room that she is in. The money that we raise will go to help her family pay the mounting bills associated with her heart transplant.
